

CAMPSITE INFORMATION

Dear camper,

Welcome to our campsite! We hope that you enjoy your stay and that you relax. To make this possible, we'd like to ask you to observe the following rules:

• The nocturnal silence is from midnight 24:00h till 7:00h and is also to be held inside the tent or caravan. Please realize that your airconditioning may bother your neighbours. We ask you to use it only when you are inside your caravan or to lower the temperature before you go to sleep.

• It's not allowed to wash the dishes at the water fountains, because some of them are not connected to the sewerage and the depuration plant. Leftovers attract vermin!

• It's not allowed to dig holes in the ground to empty used water, please collect it in a bucket and empty it regularly at the appropriate places. Guests at pitch type A+ or B+ have their own drainage outlet. Use a rubber hose-pipe (also available in our Supermarket) and make sure you use a smell-proof connection piece or seal the pipe in the outlet with tape or other material.

• You may only drain the used water of your camper van at the car washing

facilities or, if you have a pitch type A+ or B+, at the drainage outlet of your own pitch.

• It's strictly forbidden to dig channels on your pitch to carry off the rainwater.

• It's not allowed to make an open (camp)fire on the campsite. Please take all necessary precaution before using the barbecue. In summer campfires are forbidden even on the beach.

• Don't provoke theft! Do not leave valuables in your car or caravan when you're not in the neighbourhood. It's recommended to have your bicycle always locked.

• At the day of departure the pitch has to be empty and as clean as possible before 12:00h. Please recollect all your tent pegs (think about the lawnmower!)

• For the sake of our dustmen we ask you not to throw any broken glass nor any other sharp objects in the dustbin!

• It's not allowed to drive children's motorbikes or quads nor use any type of motorized toy on the campsite.
